Tax Refunds May Be Used For Bonds

U. S. Savings Bonds may be purchased with 1966 federal income tax refunds. Taxpayers due refunds may take them in Series E Bonds, Ralph B. Short, acting district director of Internal Revenue, said today.

Individual income tax forms provide a space for taxpayers to elect U.S. Savings Bonds for their income tax refunds.

"When a taxpayer elects to take his refund in Series E Bonds, he builds financial security for himself and his country," Short said. "Those who check the savings bond election on their tax return join millions of Americans who are investing in their country's future and their own."
